

I HEARD YOU THE FIRST TIME...™

D Switch

The best Push-To-Talk switch for Special Forces and SWAT entry applications

Features

Robust universal design

Protection ring prevents unintentional radio transmissions during operations

Additional input can accommodate optional Auxiliary Switches

No clicking noise when button is pressed

Positive feedback reassures user that they are successfully transmitting

TEA Products can be configured for practically any radio or intercom

TEA is an ISO Certified Company that manufactures and sells audio communication products directly to specialized end users such as U. S. Special Forces and Law Enforcement Agencies without involvement from resellers or independent reps. This policy and the unique and custom nature of these products have caused many Federal, State and Municipal Procurement Officers to qualify these as sole source procurements.

I HEARD YOU THE FIRST TIME...™

Common Headsets & Options for D Switch

Hi-Threat Headset

The Hi-Threat system protects your hearing while enabling clear radio communications. Cup-mounted microphones enhance user-situational awareness, allowing users to hear ambient environmental sounds while wearing hearing protection.

M3

The ultimate in-ear tactical headset for high noise and extreme environments

LASH Throat Mic

The LASH Throat Mic has been a favorite of tactical operators for almost 40 years and will not interfere with gas and HAZMAT SCBA masks. Our LASH system comes with the LASH Throat Mic, Sound-Tube, 2" Protected Body PTT and Radio Connector.

Cobra Boom Headset

The Cobra Headset features a modular boom arm which provides the user with personal choice and the flexibility to configure the headset however they choose. This system is a great choice for operators looking for a light weight, durable and universal solution.

Lite II Boom Headset

The outer earshell of the LITE accommodates passive and active hearing protection earphones to protect the user's hearing during explosive entry or for other very high noise applications.
